Civil Engineering Technician - Truro, NS

About the job

Looking for a change? Want to be part of a team of the next generation of long standing Nova Scotia businesses? With a clear objective to develop and innovate with our solutions offered to our clients, we are looking to add more dynamic and driven individuals to continue our growth. We are a privately owned firm and with that comes the freedom and flexibility to shape our team culture at the local office level.

PDI Engineering Group Inc. is looking for an experienced Civil Engineering Technician for it's expanding team of professionals in Truro. The successful candidate will have the opportunity to work on a wide variety of different projects and work closely with the principals at the firm. **PDI** is a growing firm and the successful candidate will have the opportunity to help shape that growth in terms of company direction, service offerings, project types, and clientele.

Key responsibilities include:

- Preparation of civil / structural construction drawings, sections and details;
- Coordination of work with other disciplines;
- Interpreting design sketches and details;
- Following design standards and guidelines, and;
- Assist in site inspections, condition assessments, reporting, specifications, and proposals.

Key requirements include:

- Diploma in Civil Engineering Technology or equivalent;
- Certified Engineering Technician or Technologist is an asset;
- Minimum 5 years of relevant experience in CAD drafting;
- Strong local experience is an asset;
- Strong working knowledge of Autodesk's AutoCAD, Revit, Civil 3D and / or Infrastructure Design, and other related engineering software;
- Ability to self-initiate and problem solve;
- Attention to detail;
- Ability to work in a team environment, and;
- A valid driver's license.

Key benefits:

- Close working relationship with the principals of the firm;
- Ability to grow and develop with a small local firm;
- Career and personal development opportunities, and;
- Competitive benefits and remuneration packages.

Client Satisfaction through Partnership & Efficient Execution

Our name represents our philosophy:

Partner - Develop - Innovate

We **Partner** with our clients and other industry members to understand project needs and objectives in order to execute and deliver on time and on budget.

We **Develop** not only comprehensive project plans, designs and solutions, but also work together with our clients to collectively develop and share knowledge, skills and expertise.

We strive to **Innovate** through our partnerships with our clients and other industry members by delivering comprehensive project planning, design, engineering, and project management services striving to develop the most innovative solutions that are practical and localized to satisfy the needs and objectives of our clients.

We offer you a challenging career in a positive and dynamic work environment. Join our team at **PDI!**
